NO. 43.

UNIQUE TOWER ON MT. WILSON

WILL BE COMPLETED SOON

Visiting Astronomers Will Find Marvelous Equipment at the Great Carnegie Observatory

Unique in construction and without a rival in its class is the latest addition to the equipment of the Carnegie Solar Observatory on Mt. Wilson. This is the new tower telescope, now nearing completion, which is shown in the accompanying illustration. The tower, which is located just north of the long, white building of the Snow telescope, is a wonderful piece of construction work, as well as being of great interest from a scientific standpoint.

The tower rises 150 feet above the ground. If you can't go to Mt. Wilson to see how high that is, just remember that it is about the height of the Los Angeles office buildings. It is surmounted by a 15-foot dome.

Structural steel, similar to that used in bridge trusses, is used in the construction of the tower, or towers, for there are really two of them, one within the other, though but one is visible to the eye. Every post or brace of the outer tower contains a similar member of the inner tower which is complete in itself. So exact is the construction that the two towers do not touch at any point from top to bottom, this being perhaps the most remarkable feature of the structure. The sole purpose of the outer tower is to protect the inner tower from vibration resulting from contact with the wind and other agencies.

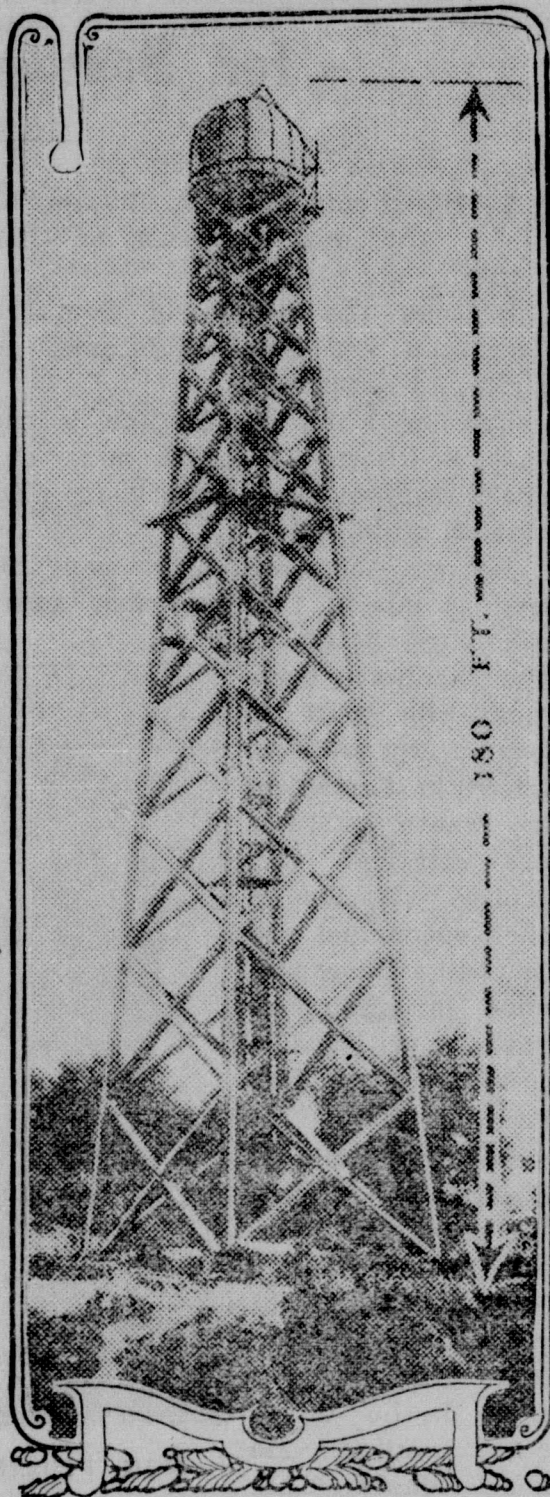

Beneath the tower is a well 75 feet deep, on the bottom of which will be placed part of the apparatus to be used in connection with that on the tower. Still other parts of the apparatus will be housed on the surface of the ground over the well. An elevator will be provided to run from the ground to the top of the tower. The bottom of the well will be reached by means of winding stairs, circling the walls of the well which will be 10 feet in diameter, and lined with concrete.

The work to be done with the new equipment is very highly specialized solar observation. Some pioneer work has been accomplished with the old tower telescope which is a simple tower 60 feet high with a 30-foot well beneath. The results accomplished have been so highly satisfactory that the new tower was undertaken on the larger scale with the hope of obtaining results as satisfactory in proportion. The whole affair is worked out according to plans originated by Dr. George E. Hale of the Carnegie Observatory.

On top of the tower will be placed a new coelostat now nearing completion at the Santa Barbara Street laboratory in Pasadena. This instrument consists mainly of a pair of large, perfectly plane mirrors, operated by clock work so that one mirror follows the sun, constantly reflecting the sun's image into the other mirror, whence it is reflected to the recording apparatus on the ground or in the well below.

In connection with the coelostat there will be a spectro-heliograph, an instrument invented by Dr. Hale, for photographing the sun in the light of any

New 150-Foot Tower For Solar Observations Now Nearing Completion on Mt. Wilson

—Courtesy Los Angeles Examiner.

single element. There will also be means of photographing the entire spectrum, as well as doing other work of importance.

Work on the new tower and its equipment is being rushed as fast as possible so that it will be ready for use by the time of the meeting of the Solar Union late in August. At that time astronomers from all over the world engaged in studying our own and other suns will gather to discuss their various problems and to inspect the Carnegie Observatory. With the 60-inch telescope, the largest in the world, and the entirely unique tower telescope, besides a multitude of minor instruments the observatory should furnish them with the time of their lives.

CONVENTION ECHO MEETING

The Pasadena Christian Endeavor Union, of which the Sierra Madre society is a member, will hold a "Convention Echo Meeting" next Sunday evening, which will be attended by some of the members of the local society. All those who wish to join the party have been requested to meet at the Sierra Madre Pacific Electric station in time to take the six o'clock car Sunday evening. A goodly number have already signified their intention of going to the meeting. Service at seven-thirty will be held in the Congregational church as usual by the society.

LIBRARY STILL GROWING

In spite of warm weather and the normal dull season for library patronage, the list of card holders grows steadily. About twenty-five new cards have been issued so far this month, this number being somewhat under the rate of growth shown in the spring, but still gratifying. If any one has a lingering doubt as to the necessity for making the library a popular public institution with something like adequate support, the increase in number of card holders should dispel it.

An eastern library has issued an invitation which might well be used by the local institution. It reads:

"Do you take books from the public library? If not, why not? The library belongs to you. Why not make use of your investment. Come and see what the library is, anyway. If you have been there, go again. You need the library and the library needs you."

LONG BICYCLE TRIP

Day Talbott and Whittier Flickinger of Long Beach spent last Sunday with Leigh Smith in the course of a long trip which they were about to complete. From Long Beach they went to San Diego and on to Mexico. Returning, they went as far inland as San Bernardino, thence coming to Sierra Madre, having ridden the entire distance on their bicycles. Last Sunday, accompanied by Leigh Smith and Cleo Zinn of Los Angeles, they ascended Mt. Wilson. On Monday they returned to their home in Long Beach, having travelled about 800 miles in the course of their journey.

NO "YELLOW" ARE PRINTED

Quartered in one of M. Olsen's cottages the past month has been William M. Cue, a young man just over from the north of Ireland. His home was in Derry, where he was a member of the staff of the Derry Journal. Conditions in journalism in this country he finds different in many respects from what he has been accustomed to. For instance, the Derry Journal is a weekly publication and one of four or five published in the same city. There is no daily there, in spite of the fact that in America a city of 30,000 like Derry would have at least two or three. The Derry papers circulate in a large number of smaller towns, most of which have no papers of their own. As to subject matter, a large amount of space is occupied by political addresses while news stories are compressed into comparatively brief items. These are written as a rule without comment or color, being a bare recital of essential facts, a point which most American papers would do well to imitate to some extent.

APPROVE MAIL SCHEDULE

In response to the call for a special meeting, the Board of Trade met in the city hall Monday evening to consider the new mail schedule submitted to Postmaster Yerxa by the chief clerk of the railway mail service. After some discussion, the schedule was approved by the board as being highly satisfactory, especially in view of the service, or lack of it, accorded Sierra Madre in the past. It will be necessary to forward the schedule to Washington for final approval and it is expected that it can be put into effect in about ten days. Score another for the Board of Trade.

LEMON PROFITS THROWN AWAY

STRIKING RESULTS SECURED

Bureau of Plant Industry Shows Large Profits Obtainable Through Careful Handling of Fruit

That a lemon grower would be so foolish as to ship one car load of rotten fruit with every twelve cars shipped seems unbelievable. But that the careless methods of some growers and packers result in just that sort of thing is proven by recent experiments of the bureau of plant industry of the Department of Agriculture.

Arnold V. Stubenrauch of Berkeley, speaking before a gathering of growers at the packing house of the Sierra Madre-Lamanda Citrus Association last week, told of the methods employed in the experiments and the results obtained. He was assisted by Messrs. H. G. Ramsay and A. W. McKay, who have had a part in conducting the experiments. The figures obtained through a long series of observations were shown graphically by means of large charts, making the showing an impressive one.

Several years ago the Bureau of Plant Industry conducted a similar series of experiments in the picking, packing and shipping of oranges. The results of the experiments are shown in bulletin No. 123 of that bureau, which may be had for the asking. Much of the matter presented therein is applicable to the lemon industry. The results of the lemon investigations have not yet been put into print but will probably be published next year. In the meantime a brief presentation of the results obtained through careful handling of lemons as against prevailing commercial methods may prove interesting.

It has been proven that blue mould, the most common form of decay in lemons, cannot penetrate the unbroken skin of a healthy lemon. Some abrasion of the skin is necessary to allow it to get a start. Hence it will be seen that a system of handling which will preserve the skin intact will keep the fruit immune from this sort of decay, eliminating the largest source of loss the grower and shipper have to contend with.

The experiments, which were conducted by Mr. Ramsay, took place in commercial orchards and packing houses under conditions identical with those under which the commercial work was done. Equal quantities of fruit handled by the commercial crew and by Mr. Ramsay's crew, were set apart for observation at the end of one month and again at the end of two months in the curing rooms. The fruit was classified as green, silver green and tree ripe. Washed and unwashed fruit were also segregated. All the methods of Mr. Ramsey's men were such as could be employed by any grower or packer.

At the end of one month's storage the commercially handled fruit which had been washed showed 3.9 per cent decay and at the end of two months 5.8 per cent. In the same periods the carefully handled fruit showed 2.4 per cent and 3.8 per cent decay respectively. These are the averages for all colors of fruit. The unwashed fruit showed less decay, commercially handled showing 1.9 per

ALL KINDS OF SIGN PAINTING.

The superintendent of a lunatic asylum was strolling round the grounds a few weeks after his appointment, when one of the inmates came up to him and, touching his hat, exclaimed: "We all like you better than the last one, sir." "Thank you," said the new official, pleasantly. "And may I ask you why?" "Well, sir," replied the lunatic, "you see, you are more like one of us."—Exchange.

"Was your husband kind to you during your illness?" "Kind, An indade, mum! Moike was more loike a neighbor than a husband."—Life.

LEMON PROFITS THROWN AWAY

[Continued from Page 1]

cent at the end of one month and 3.3 per cent at the end of two months. The carefully handled fruit showed 0.7 per cent and 1.4 per cent, respectively.

The largest loss was shown by the tree ripe fruit, indicating the poor policy of allowing fruit to ripen on the trees and become tender and easily injured. The tree ripe fruit, commercially handled and washed, showed at the end of one month 8.7 per cent decay, and at the end of two months 13.2 per cent. Carefully handled fruit in the same periods showed 5.4 per cent and 8.8 per cent respectively. Unwashed, the tree ripe fruit commercially handled showed 4.1 per cent decay in one month, and 7.4 per cent in two months, while the carefully handled fruit showed 1.4 per cent decay in one month and 3.3 per cent in two months.

Where it is possible to make the fruit presentable without washing, Mr. Stubenrauch strongly advises against the process on account of the large loss through abrasions of the skins and the consequent decay. He urges every possible precaution to keep fruit clean while on the tree, such as oiling or sprinkling on adjacent roads to keep down the dust. The dust raised by cultivation he does not regard as serious except where excessive fogs or other local conditions make it difficult to remove.

Following the experiments in storing fruit at the packing houses, the demonstration of the value of careful methods of handling was carried still further. Equal quantities of fruit were taken from good houses using careful methods of handling similar to those of the government experimenters, and from poor houses, using the commercial methods. The fruit was shipped to Washington, D. C., and examined upon arrival, and at periods of one, two and three weeks after arrival.

On arrival at Washington the fruit from the poor houses showed 3.27 per cent decay in transit, while that from the good houses showed 0.26 per cent decay. One week later the fruit from the poor houses showed 5.12 per cent decay, in two weeks, 7.51 per cent, and in three weeks, 9.54 per cent. On the other hand the fruit from the good houses showed at the end of one week 0.66 per cent decay, two weeks 1.04 per cent, and three weeks 1.4 per cent, a difference of 8.5 per cent between the two methods.

Supposing, then, that the lemons are shipped east and stored for three weeks. Out of every twelve cars on which freight and other charges have been paid the equivalent of one car is a total loss through preventable decay. If the fruit is sold upon arrival the loss falls directly upon the jobber. But the growers and packers cannot escape the loss in the end. For the jobber soon learns whose fruit will keep and whose fruit will spoil on his hands. And he will be willing to pay a higher price for the former.

SWEATED OUT A WATER RIGHT

Graphic.—My erudite young friend, Clarence Gage, the California Club rancher of the Imperial valley, drifted in from his melon patch this week with a beautiful red brick complexion beneath his straw hat. While the average clubman was grumbling about the excessive heat of last Monday, Clarence sat wreathed in smiles, imbibing an orangeade and protesting that he hadn't been so comfortable in three months, which was probably true. Apropos of the high mercury in the valley, Clarence has a wonderfully pat expression. He quotes a friend of his who, in describing how he perspired, declared that he sweated out one or two water rights in a single forenoon.

[Political Advertising]

Why Philip A. Stanton Should Be Our Governor

Southern California Has Much to Gain by Electing the Man Who Has Done Much for Southern California.

WHY should Philip A. Stanton be the next Governor of California?

Because the people of Southern California are deeply interested in having a governor.

Because Philip A. Stanton is the only Southern California man who seeks nomination at the primary election on August 16.

Because there will arise many occasions during the next four years

when the people of the southern counties will need to have a firm and true friend in Sacramento, whose interests are identical with theirs; who knows their needs, and who has had such experience in affairs of state as will enable him to gain their ends.

Because Philip A. Stanton has served the people of Southern California in the legislature for eight years; has been true to their interests, has secured the things they wanted. He has demonstrated his ability, his force and his attachment for Southern California.

Because, if the best interests of Southern California are to be served during the coming session of the legislature, when the re-forming of the assembly, senatorial, congressional and equalization districts of the state is to take place, Philip A. Stanton, with his years of legislative experience to guide him, with his intimate knowledge of California, her people, her resources, her development and

her possibilities, with his firmness and his courage, and his force, should be in the Governor's chair.

Because the work that is done then will stand for ten years afterwards, and if any Southern California man can now imagine Southern California as she will be ten years hence, he will know the necessity for having her interests cared for during this critical time.

Because, as Governor, Philip A. Stanton

will be in a position to see that Southern California is treated fairly and justly, that when the assembly and senatorial districts are re-formed, Southern California will get the share of representation she is entitled to. That when the equalization districts are re-formed, Southern California will be in no danger of receiving the sort of treatment given her by the present Board of Equalization.

HON. PHILIP A. STANTON.

Because Southern California is entitled to the Governorship this time; Northern California has selected the men who have been governor for eight years past, but she has looked to Southern California to elect them, and now she would ask again that Southern California elect another of her selections.

Because the pride of the voters of Southern California is aroused against such injustice to this portion of the state.

Why should Northern California have another Governor this time?

Echo Answers "Why?"

Mrs. Costello spent Monday at Long Beach as the guest of Mrs. J. Wallister.

Mrs. Florence Cheney left yesterday for a visit with friends in San Francisco.

Mrs. E. E. Barnes and Miss Edna Barnes are spending a few days at Long Beach.

Mr. and Mrs. B. D. Mulligan have sold their house and leave shortly for the Philippines.

Miss Mildred Harrison of Los Angeles was the guest of Miss Edna Staples a few days this week.

Mr. N. Talbot, who has been spending several weeks in Sierra Madre left this week for San Diego.

Dr. Frank Parker, who has been the guest of Mr. and Mrs. F. R. Yerxa, leaves this week for Los Angeles.

Mr. and Mrs. T. E. Yerxa have returned to their former home in Hollywood after spending the past year in Sierra Madre.

Jack Ritchey returned Monday from the east, having spent several weeks visiting at his old home in Palestine, Illinois.

Mr. and Mrs. S. R. G. Twycross entertained at their Ocean Park cottage on Sunday Miss Florence Bixby and Mr. William Bixby.

Mr. and Mrs. E. W. Camp, Mr. and Mrs. Guy Johnson, and Mr. and Mrs. W. H. Ingraham went on Saturday to the boys' cabin in the upper Bailey canyon, where they remained till Tuesday.

Philip C. Carter, Carlton Pegler, J. A. Madden and Mr. Willbanks of Los Angeles, made a trip to San Fernando Valley last week for the purpose of hunting doves. They secured about fifty.

H. M. Newlon, secretary and treasurer of the Off & Vaughn Drug Company of Los Angeles has rented through the Twycross agency the residence of Mrs. M. B. Mains on Mira Monte Avenue for a year.

Mrs. Adelaide was appointed by Judge Reeves on Wednesday to be the administratrix of the estate of her late husband, John W. Hanselman. Messrs. E. E. Elliot of Compton, H. G. Flint and A. N. Adams were appointed appraisers.

Mrs. W. J. Lawless entertained a few friends with a Spanish dinner Thursday night in honor of Mrs. G. E. Munger, of Chicago. Those present were Mmes. Lettau, Munger, Johnson, Goodfellow, Stilson, Lawless; Messrs. Lettau, Johnson, Davis, Mackerras, Hart, Stilson and Lawless.

Mrs. Mary Davis Goodfellow entertained last Friday evening with a charming porch party. About fifty friends enjoyed her hospitality. The spacious porch and pretty bungalow which was thrown open were the scene of much merriment. Prize winners at five hundred were Mrs. B. B. Bravinder and Mr. W. J. Lawless. Delicious refreshments were served.

Mrs. Florence Stretch Price died Sunday at the house on Auburn Avenue where the family had resided for a short time. She was the wife of Parker J. Price and the daughter of Rev. and Mrs. G. E. Stretch, and was twenty-one years of age at the time of her death. She was preceded in death by her little baby which died ten days ago. She had been an active church worker and was highly regarded in the several towns where she had lived. Funeral services were held at the home on Tuesday, Rev. Dr. J. M. Campbell officiating. Interment was made in the Sierra Madre cemetery.

Mrs. C. Rice of Riverside is the guest of Mrs. H. C. Churchill this week.

Misses Elsie Caskey and Hazel Hill are spending a few days at Ocean Park.

Miss Eleanor Coffeen of Pasadena was the guest of Miss Janet Stevenson last Sunday.

Mr. and Mrs. E. A. Hoffman leave Saturday for a stay of two weeks at Elsinore.

Mrs. Howard Hill, Miss Ruth Miller and Victor Hill are at Balboa Beach for a few weeks.

Mr. and Mrs. William Brown of Chicago are the guests of Mrs. George W. Lettau this week.

Mrs. T. M. Bulson of Los Angeles was a guest at the home of Mrs. S. C. Davis a few days this week.

John Thorndyke came down from the mines in Inyo County and has been spending the week in Sierra Madre.

Miss Daisy Hawks returns today from Alameda where she has been a guest at the home of her brother for several weeks.

Mrs. J. C. Pegler has been suffering from a severe attack of lumbago the past week but her condition is much improved.

Harry Coffey, who has spent several months with his sister, Miss Annis P. Coffey, left Saturday for Salt Lake City where he has taken an electrical engineering position.

Mr. and Mrs. Malcolm Cambell leave Saturday night for a visit of a month at Mr. Campbell's old home in Collinwood, Canada. On their return they will remain in Los Angeles permanently.

Church of the Ascension, the Rev. Dr. George H. Cornell, Rector. Tenth Sunday after Trinity. Sunday School 9:45 a. m.; morning prayer and sermon, 11 a. m. All are cordially invited.

BUILDING NEARS COMPLETION

The white glazed brick front being put on the new concrete building erected by A. N. Adams promises to make the building more than ordinarily attractive. The Bowen boys are doing this part of the work while Merrill & Dow are finishing the plastering of the interior. The building will probably be ready for occupancy in three weeks.

J. A. Patterson has been putting in his spare time lately looking at soda fountains and other interior fittings he will install in the room which he will occupy. He promises some surprises which he thinks will make ice cream taste just a little better than it ever did anywhere else.

Discreet.

"May I-may I kiss you dear?" said he. "First I want one thing made clear," said she.

"Have you e'er kissed maid before, or tried?"

"No," he answered—she was sure he lied.

Then, with willing lips, she whispered, "Well,

Yes, you may, since you don't kiss and tell." —Boston Transcript.

"Who was it that said, 'Be sure you're right and then go ahead?'" "I don't know," replied Mr. Chuggins. "But he doesn't belong to the chauffeurs' union in our town."—Washington Star.

A mother of four daughters, one of whom had recently married, cornered an eligible young man in the drawing-room. "And which of my girls do you most admire, may I ask?" "The married one," was the prompt reply.—Exchange.

FRIDAY, JULY 29, 1910

ATTENTION IOWANS!

The annual summer outing of the Iowans of Southern California and their friends will be held at Alamitos Park, Long Beach, Saturday, August 13, 1910. This is a grassy, shady park, covering several blocks and is about one mile east of the pier at Long Beach. We believe this will be a delightful place for the summer outing, as it will give us shade and grass, also be at the beach but away from the noise and confusion of the pier. Special cars, starting from 6th and Los Angeles streets, rear of P. E. depot, and will run direct to the park without extra charge. Free lemonade and coffee will be served to those wearing the official outing button. Do not buy other buttons or badges. You cannot secure these things free unless you have the official one.

It should be understood that this is simply a chance for all Iowans to go to the beach for a day together. There will be no attempt to register as at a winter picnic. Once a year is often enough for that, but as nearly all of us go to the beach one or more times each summer, we may as well go on the same day and have a jolly time meeting the old friends. There will be a pleasing program with many short addresses. Among those who will be invited to speak are Senator Dolliver, Bishop Hughes, Robert J. Burdette, Judges Wilbur, Willis, Houser and Bordwell, Mayors Alexander and Early, Major Donnell, Assemblyman Cattell, the former presidents of the Iowa Association and others.

Bring your well-filled lunch baskets with you and generously invite those who have none to eat with you. Bring cups and spoons. The Long Beach Band will furnish music during the lunch hour. Please see that your papers have frequent notices of the date and place and also see that the word is passed on to others.

Please Notice This—Hereafter the Summer Outing will be held regularly on the second Saturday in August. Keep the date in mind and tell all Iowans.

C. H. PARSONS,

Secretary, Artesia, California.

MUSIC IN PUBLIC LIBRARIES

Writing in the St. Louis Mirror, Editor William Marion Reedy notes that a feature of the St. Louis Public Library, not fully appreciated because not well known to the general public, is the musical department. "For years," he observes, "the various libraries throughout the east have encouraged musical study, and stimulated an interest in classical works, both vocal and instrumental, by permitting their readers to take out bound volumes of music on the same basis as fiction or other books. It was only within the last few months, however, that this phase of library development was instituted in St. Louis. St. Louis' Symphony Society, and grand opera have done much to create a demand at the library for classical selections, and the number of volumes in this department has been augmented considerably since its establishment, with a swiftly growing popularity. The circulation of good music, even for a few weeks, has an inestimable effect on musical education and general culture. It offers a wide range for musical study and more thorough acquaintance with

the masters of song and instrumentation than could otherwise be obtained; for the possession of an individual musical library covering the number of volumes that might be taken from the Public Library for study or mere sight reading during a year, is an expensive luxury which few can afford. Music at the library keeps students and teachers in touch with the newest high-grade musical literature, and secures a wider circulation for writers than they might otherwise get. Through the library system, musical clubs, also, have advantages of offering more extensive programs than otherwise, for it is well known that the high price of certain classical selections often prevents members of these organizations from acquiring them for the purpose of necessary study. The innovation

at the Public Library should be more generally advertised, even if a very good beginning augurs for its great success."

PRESIDENT TAFT ON LOCAL OPTION

In his Yale lectures President Taft says:

"In this class of laws affecting the sale of liquors, legislators have devised a method of local referendum called local option, which has worked well because it is practical. It may be impossible by general referendum for the people at large understandingly to pass upon the various questions arising in the framing of complicated legislation and to reach a satisfactory result; but upon the simple issue whether saloons shall be prohibited in a particular community it is

entirely easy for the local public clearly to consider the issue and decide it. When it has expressed its opinion in the affirmative the question of the practical operation of the law is thereby removed from the discussion. By a popular vote in favor of prohibition it is made certain that the executive officers elected by that local community will zealously carry out the law, and that juries selected from the vicinage will do their duty as required by the statute."

Valuable additions to your house furnishings in the form of daily paper premiums. See display next week. A. S. Mead.

"The emancipation of the Republican Party in California from domination by the Political Bureau of the Southern Pacific Railroad Company and its allied interests."—Extract from Lincoln-Roosevelt Republican League Declaration of Principles.

"We are not trying to put the corporations out of business, but out of politics."
 HIRAM W. JOHNSON.

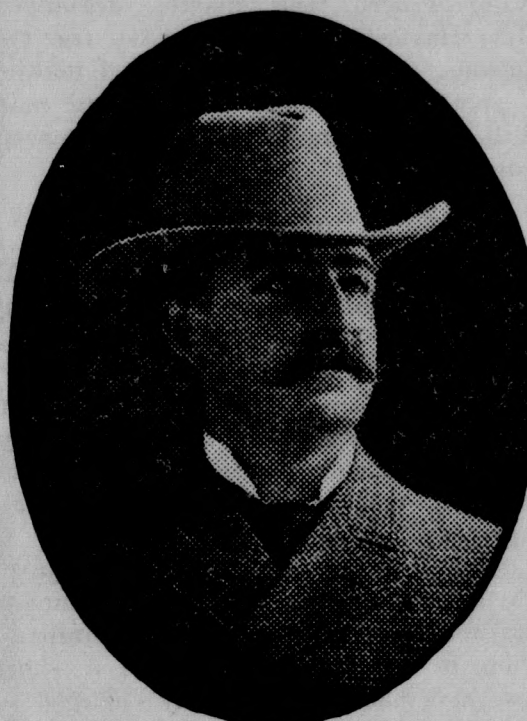

"The men who debauch and degrade the politics of the Republican Party are no partisans. Their only object is their own gain."
 HIRAM W. JOHNSON.

"This fight is not local. It is going on all over the country. It is the fight against the system."
 HIRAM W. JOHNSON.

[Political Advertising]

GAVIN W. CRAIG

Now and for many years a practicing attorney in Los Angeles; Court Commissioner, and Secretary and Instructor in the College of Law of the University of Southern California. Candidate for the Republican nomination for the office of Superior Court Judge.

It is hardly necessary to mention whose photo that is which appears above, so well is he known throughout the county. It is of the present incumbent of the Sheriff's office "Billy" Hammel, the man who has "made good." Men of good sound sense agree the best practice is that when a good official has been discovered, proven such by actual experience and test, that "WELL ENOUGH SHOULD BE LET ALONE." and that it is unwise to take chances when there is no necessity for it.

Sheriff Hammel is in the prime and vigor of life, and is as good as he looks, and that's saying something. This County never had a more efficient or capable Sheriff, and we should congratulate ourselves that he is a candidate for re-election.

At the primaries on August 16th next, it is hoped that the people will show their appreciation by giving him an overwhelming majority.

COMMENDED FOR EFFICIENCY

The taxes collected and accounted for during the years 1909-10 amounted to \$7,269,076.69. To handle this amount of money, to account for it and balance the books exactly each year, requires accuracy, experience and efficiency.

Col. W. O. Welch has served as County Tax Collector during the past eight years, has improved and systematized the methods to such an extent that each Grand Jury for those eight years has commended him for efficiency.

If you approve of keeping honest and capable men in office, vote at the primaries for W. O. Welch for County Tax Collector.

NOTICE TO CREDITORS.

Estate of John W. Hanselman, deceased.

Notice is hereby given by the undersigned Adelaide Hanselman, executrix of the Estate of John W. Hanselman, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit the same with the necessary vouchers, within ten (10) months after the first publication of this notice to the said Adelaide Hanselman, executrix of the said estate, at Sierra Madre, in the County of Los Angeles, the same being the place for the transaction of the business of said estate.

Dated this 29th day of July, A. D. 1910.

ADELAIDE HANSELMAN,
 Executrix of the Estate of John W. Hanselman, deceased.

J. M. Emmert, Attorney for Estate.

ORDINANCE NO. 121.

AN ORDINANCE OF THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE, DECLARING ITS INTENTION TO IMPROVE A PORTION OF HIGHLAND AVENUE IN THE CITY OF SIERRA MADRE, AND DETERMINING THAT BONDS SHALL BE ISSUED TO REPRESENT THE COST THEREOF.

The Board of Trustees of the City of Sierra Madre do ordain as follows:

Section 1. That the public interest and convenience require, and that it is the intention of the Board of Trustees of the City of Sierra Madre to order, the following work to be done, to-wit:

First: That said Highland Avenue from the east property line of Baldwin Avenue on the west to the west property line of Mountain Trail Avenue on the east, including all intersections, (except such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also except such portions of said street and intersections as have already been graded to the official line and grade, oiled and accepted by said City), be graded and oiled in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the grading and oiling of streets on file in the office of the City Clerk of said City, said specifications being numbered 10.

Second: That a cement curb be constructed along both sides of said Highland Avenue from the east curb line of Baldwin Avenue on the west to the west curb line of Mountain Trail Avenue on the east, (except along such portions of said street between said intersections where a cement curb has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the construction of cement curbs on file in the office of the City Clerk of said City, said specifications being numbered 2.

Third: That a cement gutter three (3) feet in width be constructed along the northerly side of said Highland Avenue from the east curb line of Baldwin Avenue on the west to the west curb line of Mountain Trail Avenue on the east, (except along such portions of said northerly side of said street where a cement gutter three (3) feet in width has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the construction of cement gutters on file in the office of the City Clerk of said City, said specifications being numbered 8.

Fourth: That a cement gutter two (2) feet in width be constructed along the southerly side of said Highland Avenue from the east curb line of Baldwin Avenue on the west to the west curb line of Mountain Trail Avenue on the east, (except along such portions of said southerly side of said street where a cement gutter two (2) feet in width has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and City specifications for the construction of cement gutters on file in the office of the City Clerk of said City, said specifications being numbered 8.

Fifth: That a cement concrete culvert be constructed along said Highland Avenue between said termini where shown on the plans and profiles for such work on file in the office of the City Engineer of said City, and in accordance

Notice is hereby given that suit will be commenced soon against all property owners against whose property assessments for culvert work on Mountain Trail and Baldwin Avenues remain unpaid. S. M. SEVIER.
July 22, 1910.

CANNON MEN NOT WANTED

Graphic.—Upon his record in obtaining appropriations for this county Mr. McLachlan bases his claims for indorsement at the polls. After setting forth the results of his stewardship in dollars and cents, Mr. McLachlan made the statement that he can "better afford to be defeated in this contest than the people of this district can afford to have me beaten." It is a question open to debate. For what was obtained in dollars and cents an equivalent was given in a close adhesion to Cannon policies, and all that he represents. Possibly, that was the only practical way to pry open the pork barrel, but, in view of what the reprobate speaker stands for, the alliance is badly tainted. With his pro-Cannon proclivities The Graphic has no sort of sympathy. The old "standstill" must walk the plank, and if he carries down with him to a political grave a sordid following, theirs the fault.

"Cheer up, my little man," said a passer-by to the small newsboy; "what's the use of worrying? You may be President some day." "S-say," sobbed the little fellow, "it's s-sure do l-look as if I was h-headed dat way; somebody's allers a-roastin' me!"—Chicago Daily News.

AT THE THEATERS

Majestic

For her third week at the Majestic theater, Miss Virginia Harned will give one of her greatest successes, "Iris," a tremendous emotional drama by Arthur Wing Pinero, the master dramatist. Miss Harned played this part for two seasons, starring in the east and making a great impression. Her leading man, William Courtenay, will have an exceptionally big part.

Burbank

The tremendously popular George M. Cohan musical comedy, "Little Johnny Jones," will be the Burbank attraction for next week. There are few managers who would dare jump their stock companies from drama to musical comedy, and the Burbank players are about the only aggregation which can make this leap gracefully.

Percy Bronson, the clever, young juvenile actor and singer who made such a hit with the Kolb and Dill company when it was at the Majestic a short time ago, has been specially engaged to play the part of Johnny Jones, the jockey. Peter Lang, the new comedian of the Burbank company, will make his first appearance in this piece, playing the elephantine comedy role, "The Unknown." Lang was one of the members of that famous organization, The Bostonians, when it was first organized, and is regarded as among the greatest of American comedians. A special chorus has been drilling for weeks to get the proper amount of snap and swing into the splendid, catchy music.

Miss Marjorie Rambeau will appear in a new role—that of a prima donna soprano, and her friends are due for a tremendous surprise when they hear her. The entire Burbank company will be seen in the big cast, making one of the most attractive theatrical offerings of the summer.

Attractive and valuable premiums free with your daily papers. See display next week at our office. A. S. Mead.

ORDINANCE NO. 123.

AN ORDINANCE OF THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE DECLARING ITS INTENTION TO IMPROVE A PORTION OF CARTER AVENUE IN SAID CITY OF SIERRA MADRE, AND DETERMINING THAT BONDS SHALL BE ISSUED TO REPRESENT THE COST THEREOF.

The Board of Trustees of the City of
Sierra Madre do ordain as follows:

Section 1. That the public interest and convenience require, and that it is the intention of the Board of Trustees of the City of Sierra Madre to order, the following work to be done, to-wit:

First: That said Carter Avenue from the center line of Baldwin Avenue on the east to the east property line of Auburn Avenue on the west, including all intersections, (except such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also except such portions of said street and intersections as have already been graded to the official line and grade, oiled and accepted by said city), be graded and oiled in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City and city specifications for the grading and oiling of streets on file in the office of the City Clerk of said City, said specifications being numbered 10.

Second: That a cement curb be constructed along both sides of said Carter Avenue from the west curb line of Baldwin Avenue on the east to the east property line of Auburn Avenue on the west, (except along such portions of said street between said termini where a cement curb has been constructed to the official line and grade and accepted by said city), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City and city specifications for the construction of cement curbs on file in the office of the City Clerk of said City, said specifications being numbered 2.

Third: That a cement gutter three (3) feet in width be constructed along the northerly side of said Carter Avenue from the west curb line of Baldwin Avenue on the east to the east property line of Auburn Avenue on the west, (except along such portions of said northerly side of said street where a cement gutter three (3) feet in width has been constructed to the official line and grade and accepted by said city), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City and city specifications for the construction of cement gutters on file in the office of the City Clerk of said City, said specifications being numbered 8.

Fourth: That a cement gutter two (2) feet in width be constructed along the southerly side of said Carter Avenue from the west curb line of Baldwin Avenue on the east to the east property line of Auburn Avenue on the west, (except along such portions of said southerly side of said street where a cement gutter two (2) feet in width has been constructed to the official line and grade and accepted by said City), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the construction of cement gutters on file in the office of the City Clerk of said City, said specifications being numbered 8.

Fifth: That a cement concrete culvert be constructed along and across said Carter Avenue between said termini where shown on the plans and profiles for such work and in accordance with the number of the plan designated thereon and in accordance with city specifications for the construction of

cement concrete culverts on file in the office of the City Clerk of said City. said specifications being numbered 9.

Section 2. That the said Board of Trustees of the City of Sierra Madre finds, upon estimates of the City Engineer of said City that the cost of said proposed work or improvement will be greater than fifty (50) cents per front foot along each line of the said street so proposed to be improved as hereinbefore set forth, including the cost of intersection work assessable upon said frontage, and said Board of Trustees determines that serial bonds shall be issued to represent the cost of said work or improvement; said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July, respectively, of each year at the rate of seven per cent per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Section 3. The Street Superintendent shall post notices of this work as required by law and shall cause said notices to be published once per week for two successive weeks in the "Sierra Madre News," a weekly newspaper published and circulated in said City of Sierra Madre and hereby designated for that purpose.

Section 4. ORDINANCE NO. 122.

AN ORDINANCE OF THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE, DECLARING ITS INTENTION TO IMPROVE A PORTION OF HERMOSA AVENUE IN SAID CITY OF SIERRA MADRE, AND DETERMINING THAT BONDS SHALL BE ISSUED TO REPRESENT THE COST THEREOF.

The Board of Trustees of the City of Sierra Madre do ordain as follows:

Section 1. That the public interest and convenience require, and that it is the intention of the Board of Trustees of the City of Sierra Madre to order, the following work to be done, to-wit:

First: That said Hermosa Avenue, from the north property line of Highland Avenue on the south to the south property line of Grand View Avenue on the north, including all intersections (except such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also except such portions of said street and intersections as have already been graded to the official line and grade, oiled and accepted by said city), be graded and oiled in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and city specifications for the grading and oiling of streets on file in the office of the City Clerk of said City, said specifications being numbered 10.

Second: That a cement curb be constructed along both sides of said Hermosa Avenue from the north property line of Highland Avenue on the south to the south property line of Grand View Avenue on the north (except along such portions of said street between said termini where a cement curb has been constructed to the official line and grade and accepted by said city), in accordance with the plans and profiles for such work on file in the office of the City Engineer of said City, and

city specifications for the construction of cement curbs on file in the office of the City Clerk of said City, said specifications being numbered 2.

Third: That a cement concrete culvert be constructed along and across said Hermosa Avenue between said termini where shown on the plans and profiles for such work and in accordance with the number of the plan designated thereon and in accordance with city specifications for the construction of cement concrete culverts on file in the office of the City Clerk of said City, said specifications being numbered 9.

Section 2. That the said Board of Trustees of the City of Sierra Madre finds, upon estimates of the City Engineer of said City, that the cost of said proposed work or improvement will be greater than fifty cents (50c) per front foot along each line of said street so proposed to be improved as hereinbefore set forth, including the cost of intersection work assessable upon said frontage, and said Board of Trustees determines that serial bonds shall be issued to represent the cost of said work or improvement; said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year at the rate of seven per cent per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Section 3.
